

Men over 17 and women over 45 can safely eat more fish

- **7 servings a week OR**
5 servings a week of bluegill or redear sunfish **OR**
 - **2 servings a week OR**
 - **2 servings a week** of striped bass **OR**
1 serving a week of largemouth bass or white sturgeon
- Do not eat any fish or shellfish from the Port of Stockton.**

♥ Why eat fish?

Eating fish is good for your health. Fish have Omega-3s that can reduce your risk for heart disease and improve how the brain develops in unborn babies and children.

What is the concern?

Some fish have high levels of mercury and PCBs. Mercury can harm the brain especially in unborn babies and children. PCBs can cause cancer.

What is a serving?

For Adults

For Children

The recommended serving of fish is about the size and thickness of your hand. Give children smaller servings.

Fish buying guidelines for women 18 – 45 and children 1 – 17

Do not eat fish caught by family or friends in the same week that you eat fish bought in a store or restaurant. For fish that you buy:

- **Safe to eat 2 servings per week** of low mercury fish such as salmon ♥, pollock, catfish, tilapia, shrimp, anchovies ♥, sardines ♥, trout ♥, or canned chunk-light tuna

OR

- **Safe to eat 1 serving per week** of medium-mercury fish such as canned albacore (white) tuna ♥

- **Do not eat** shark, swordfish, tilefish, or king mackerel

♥ = High in Omega-3s
