

**Proposition 68 Program Update  
 Staff Report**

**PROGRAM UPDATE**

The Proposition 68 Community and Economic Enhancement Grant Program is designed to promote a robust Delta economy, support the vitality of Delta communities, and allow staff to partner with project proponents to develop proposals that meet these goals. The Conservancy has received eleven concept proposals to date. One was deemed ineligible under General Obligation Bond law, and one was determined not to be a viable project. Staff is currently working with four applicants to assess the viability of proposed projects and five applicants to develop full proposals.

Staff will continue to evaluate opportunities for outreach and collaborate to develop projects as appropriate.

**ACTIVE PROPOSALS - Received since previous staff update**

ID #	Project Name	Applicant	Project Type	Amount Requested	County	Status

<b>Total Amount Requested:</b>				<b>\$6,945,474.00</b>		

**BACKGROUND**

Proposition 68 is the California Drought, Water, Parks, Climate, Coastal Protection, and Outdoor Access for All Act of 2018 (Public Resources Code (PRC), Division 45) that was passed by California voters on June 5, 2018. Proposition 68 makes \$12,000,000 available to the Conservancy to use for the purposes specified in its governing statute (Sacramento-San Joaquin Delta Conservancy Act, Public Resources Codes, Division 22.3). The Conservancy's Proposition 68 funds will be used to fund projects in the Conservancy's Community and Economic Enhancement Grant Program to support community and economic development in the Delta in a manner that is complementary to ecosystem restoration and other Conservancy programs. The grant program began accepting concept proposals on January 6, 2020.
