Delta Invasive Species Symposium:

Early Detection and Rapid Response

When & Where:

Zoom Virtual Event

December 15, 2021

9:00 AM – 2:30 PM

Event Description:

The 2021 Delta Invasive Species Symposium will focus on early detection and rapid response (EDRR) to new invasions. Well executed EDRR can significantly reduce the harmful impacts of invasive species on habitats and ecosystem services. The Symposium will consist of invited talks, a panel discussion, and an opportunity for feedback on draft Delta EDRR Framework.

Co-sponsors:

Delta Interagency Invasive Species
Coordination Team

Registration information will be sent out separately and available on the [website](#).
