

Community Enhancement Program Update

Staff Report

PROGRAM UPDATE

As of July 2026, there are 11 active projects, one approved project, and six completed projects. For updates on a specific project, please visit: [Delta Conservancy Project Table Updates page](#). For an interactive map of program projects, please visit: [Delta Conservancy Project Maps page](#).

SIGNIFICANT PROJECT MILESTONES

P6819: Suisun City Public Fishing Dock Planning Project (Planning)

The Grantee has completed 35% Design Plans, and the project is on track to be under budget. An amendment request to expand the project's scope will be presented during Agenda Item 9. The purpose of this project is to complete planning for the construction of a 12-foot by 100-foot public fishing dock in the Suisun Slough, located within Suisun City. The Project includes permitting, preparation of a site Master Plan, 65 Percent Design Plans, and community outreach. This fishing dock will serve as a recreational and educational hub, promoting tourism and environmental education in the region. The dock will be ADA accessible and feature benches, shade, fishing pole holders, and an educational kiosk. The Grantee was awarded \$715,180 in Proposition 68 funds in 2024. They are requesting an increase in project scope and a term extension.

Clean Vessel Act Program

In December 2025, the Delta Conservancy entered into a contract with the California Department of Parks and Recreation's Division of Boating and Waterways to administer the Clean Vessel Act Grant Program for 2026. Work started on January 1, 2026. Conservancy staff are currently working with design firm Lunar Branding to update the Sacramento-San Joaquin River Delta Pumpout Guide & Map for Boaters.

BACKGROUND

The Community Enhancement Program (CEP) refers to a collection of projects that support and enhance communities and economies in the Sacramento-San Joaquin Delta and Suisun Marsh. Projects in this program are currently funded through Proposition 68 California Drought, Water, Parks, Climate, Coastal Protection and Outdoor Access for All Act of 2018 and Climate, Access, and Resource (CAR) funds. The Proposition 68 Grant Program is designed to promote a robust Delta economy, support the vitality of Delta communities, and allow staff to provide guidance to project proponents as they develop proposals to meet these goals. The CAR is a General Fund allocation and is designed to promote multi-benefit projects within the areas of climate resilience, community access, and natural resource restoration.

The CEP Grant Program requires both a concept proposal and a full proposal. Full proposals are subject to a rigorous review and evaluation process by staff and external professional reviewers (when applicable), and are recommended for funding based upon review, evaluation, and funding availability.

The table below highlights the allocations for Proposition 68 (bond funds) and CAR (general funds). Each funding source has funds allocated for both administration and grants. The amount remaining to be allocated are funds available for new grants.

Community Enhancement Program Funding Sources. ERCA refers to the Ecosystem Restoration and Climate Adaptation Program (Agenda Item 7). Amounts listed in millions of dollars.

Funding Source	Total Allocation	Minimum Amount Available for Grants	Total Amount Allocated for Grants	Amount Remaining to be Allocated	Allocation Date	Encumbrance Date	Program(s) Supported by Funding Source
Proposition 68	\$12.0	\$8.7	\$8.7	\$0	6/8/2018	6/30/2027	CEP
CAR	\$5.25	\$4.99	\$4.99	\$0	9/23/2021	6/30/2027	ERCA and CEP
CAR	\$6.125	\$5.82	\$5.8	\$0.02	9/6/2022	6/30/2027	ERCA and CEP
